Re: Interior decoration services provided by Designers Guild, Kolkata, India

Dear Sir/Madam

This is to note that in 2013 we needed services to furnish a newly built apartment in South Kolkata. Since we live outside of India, this project would have been practically impossible until my cousin Mrs. Swagata Chaudhuri recommended Designers Guild, Kolkata. The work was completed within agreed upon time and budget and to our complete satisfaction.

Furnishing work included building: large wardrobe unit; bed with headboard and concealed storage space; kitchen cabinets; wall-mounted cabinets in the dining area; repairing and refinishing old furniture; installing custom curtain rods etc. We chose the design, material and color schemes from various options developed by Designers Guild and presented to us during our meeting in Kolkata and later by CAD drawings and images sent via e-mails. Thus we were able to handle necessary changes to original work order as well as keep track of the project from across the globe.

Throughout the process Designer's Guild project manager Anup Kumar Pandit remained our primary contact. I would like to make a special note that we were impressed with Mr. Pandit's depth of knowledge in material, design trend and other aspects of evolving trend in interior décor in India as well as in Western countries. While Anup was instrumental to the successful completion of the project, we were also impressed by the other professionals and highly skilled craftsmen who worked there. They were dedicated, courteous and hardworking.

I cannot thank Anup and his team enough.

Sincerely,

Manideepa Ghose
